

**STATUS:
FOR CONSTRUCTION**

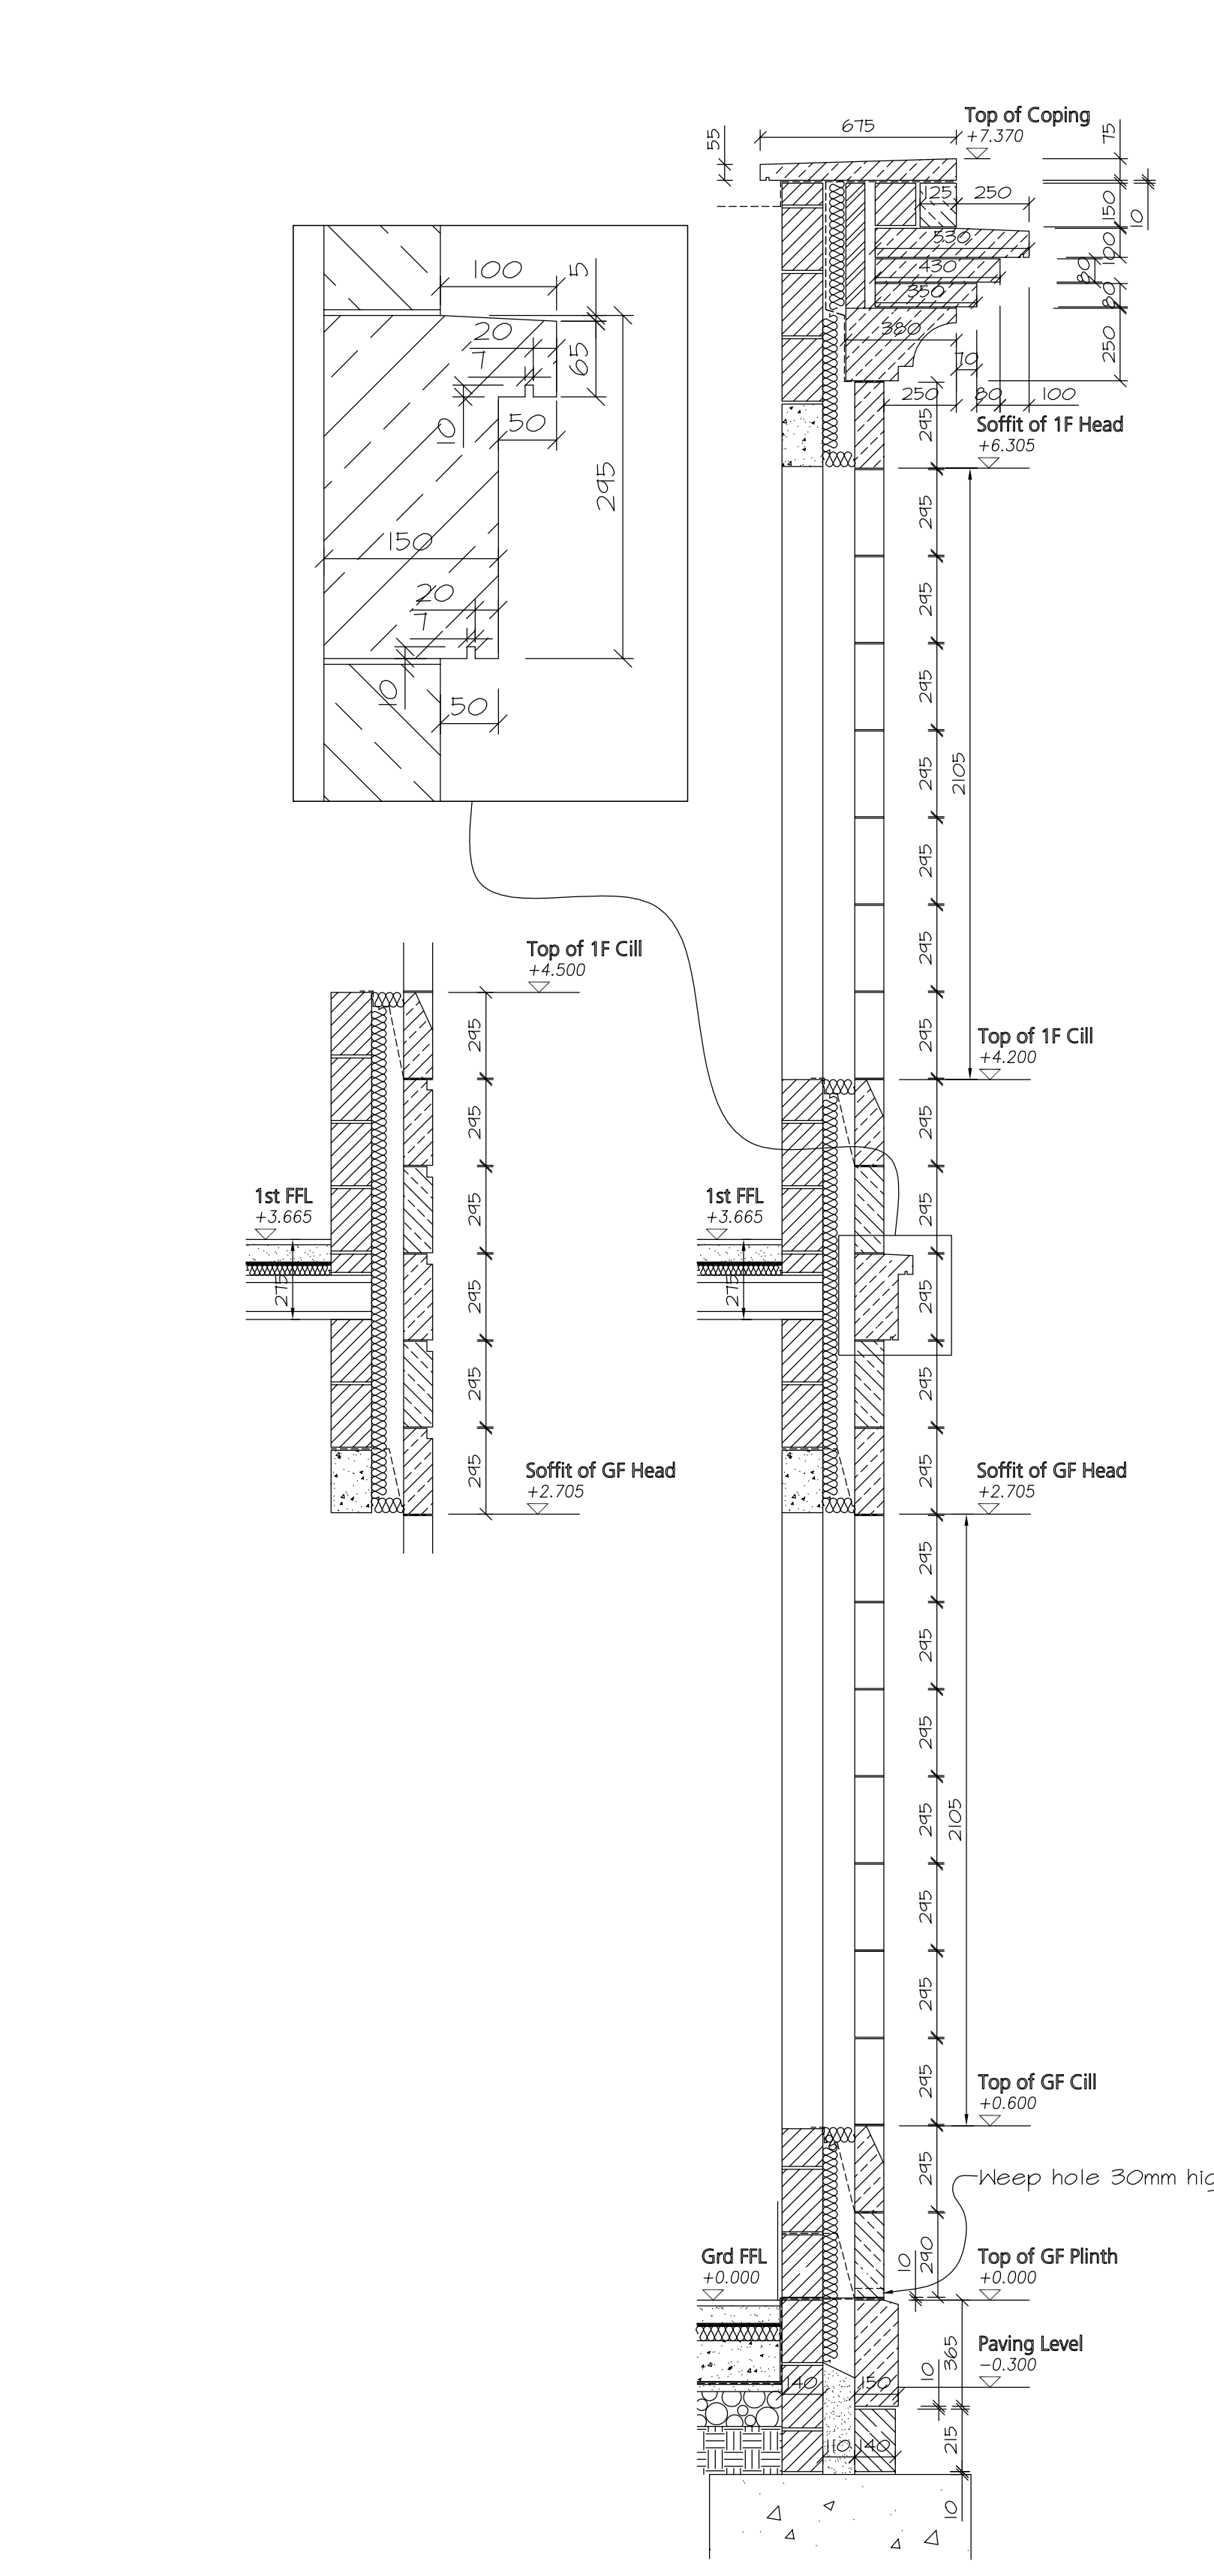

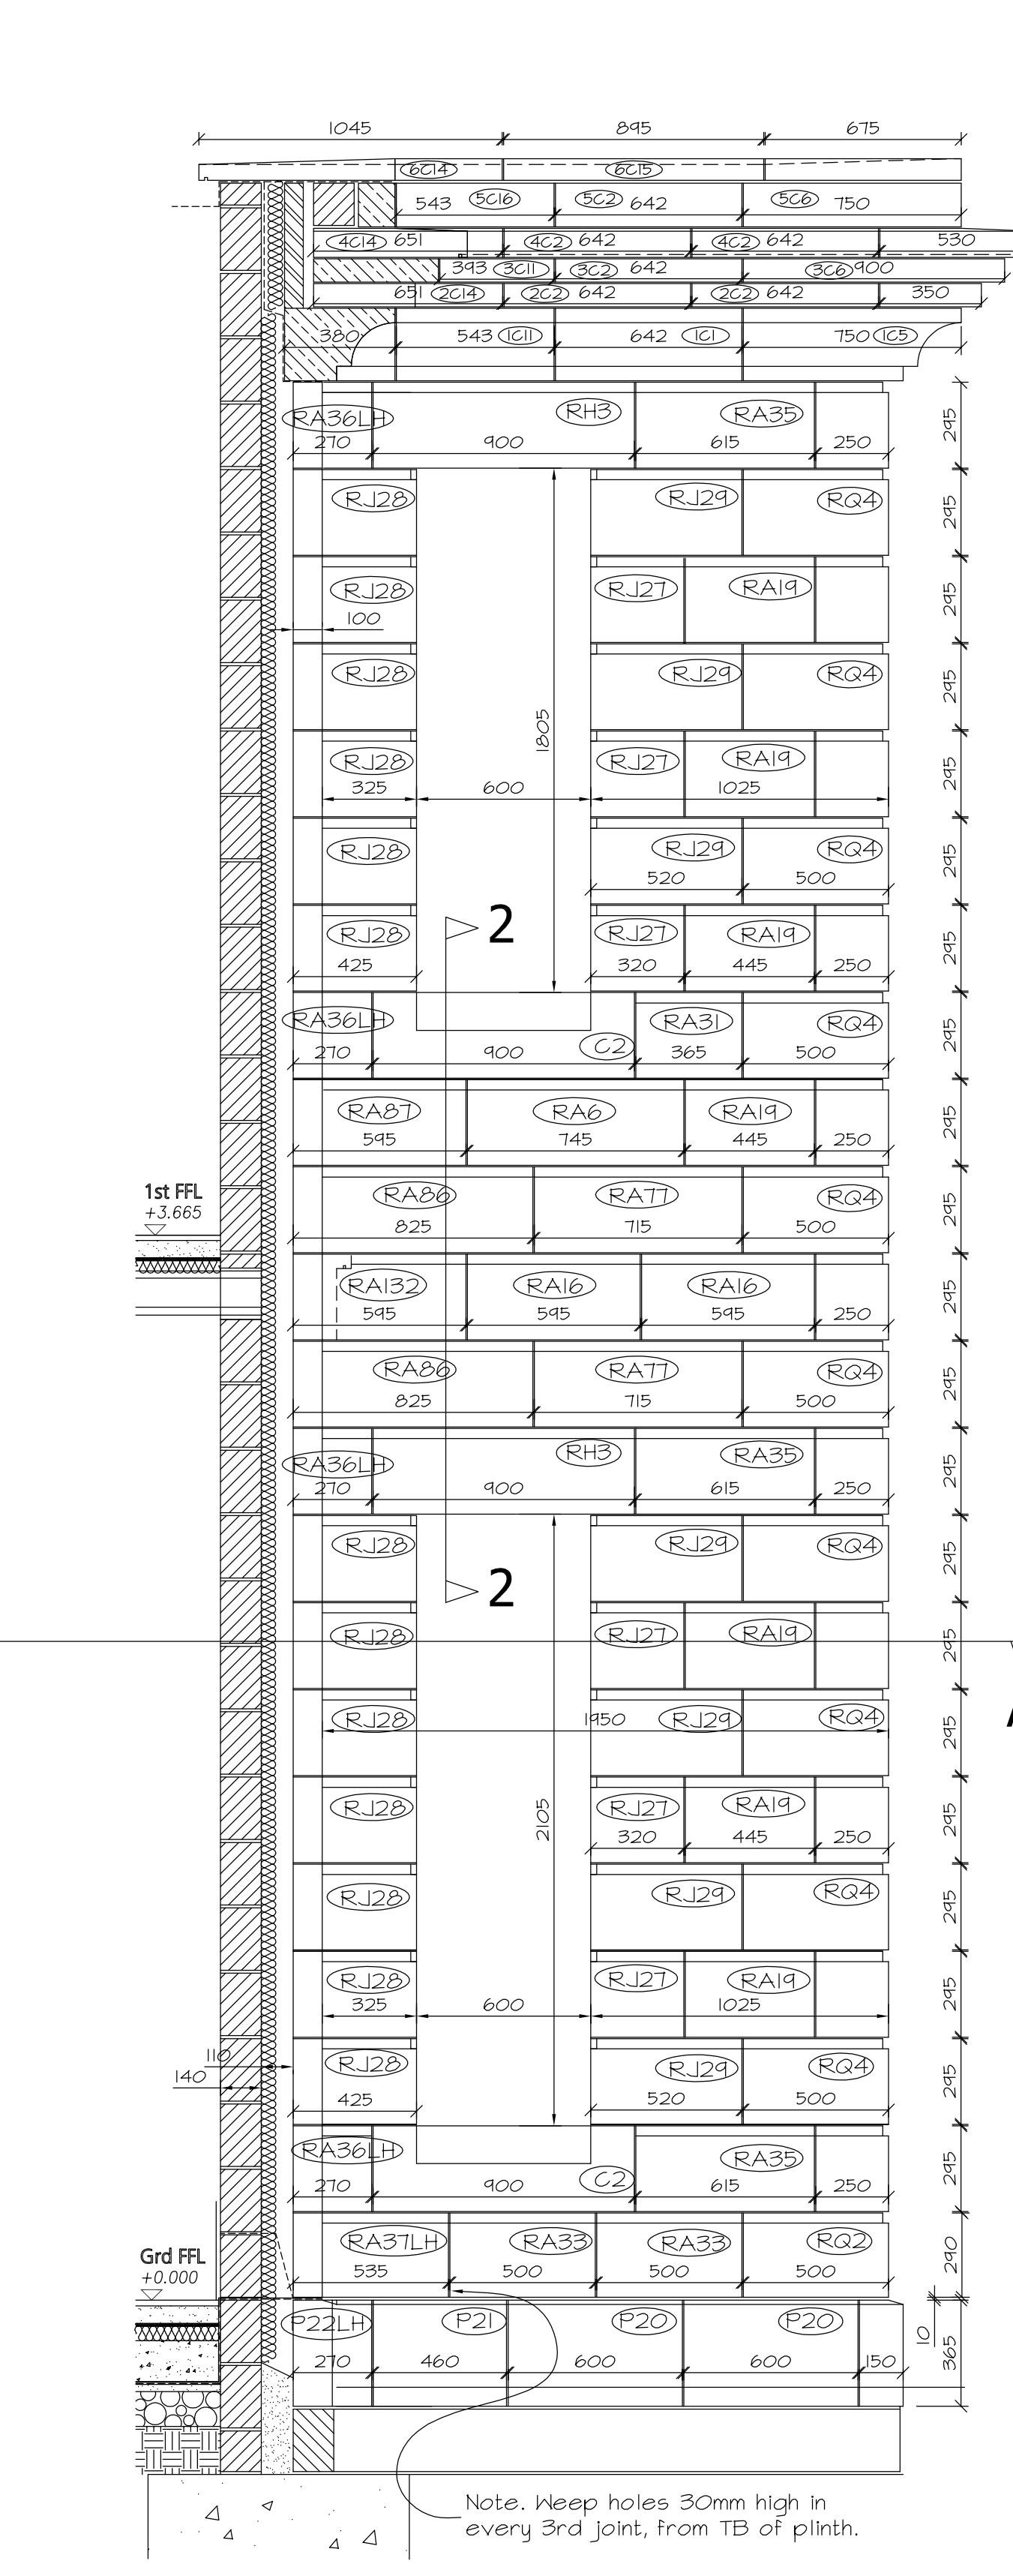

These drawings have been prepared in accordance with BS298 1994 Design & Installation of Natural Stone Cladding and Lining.

CDM REGULATIONS
DESIGN RISK ASSESSMENT
The size and shape of individual stones for this project have been designed to satisfy the overall design requirements for the building.
All persons handling and installing such stones should be aware that there are risks associated with this type of work, which cannot be designed out.

Risk: Injury
Risk Reduction:
Fitters must be suitably experienced in the handling of stones and employ lifting methods appropriate to the size and shape of the stone.
Access and working platforms must be to the standard required by current legislation.
Reference must always be made to COSHH information for the materials being used.

Notes:
☉ = To be confirmed
50 = Net Stone sizes
50 = Gross overall sizes

All stone to stone joints to be 5mm, except where stated.

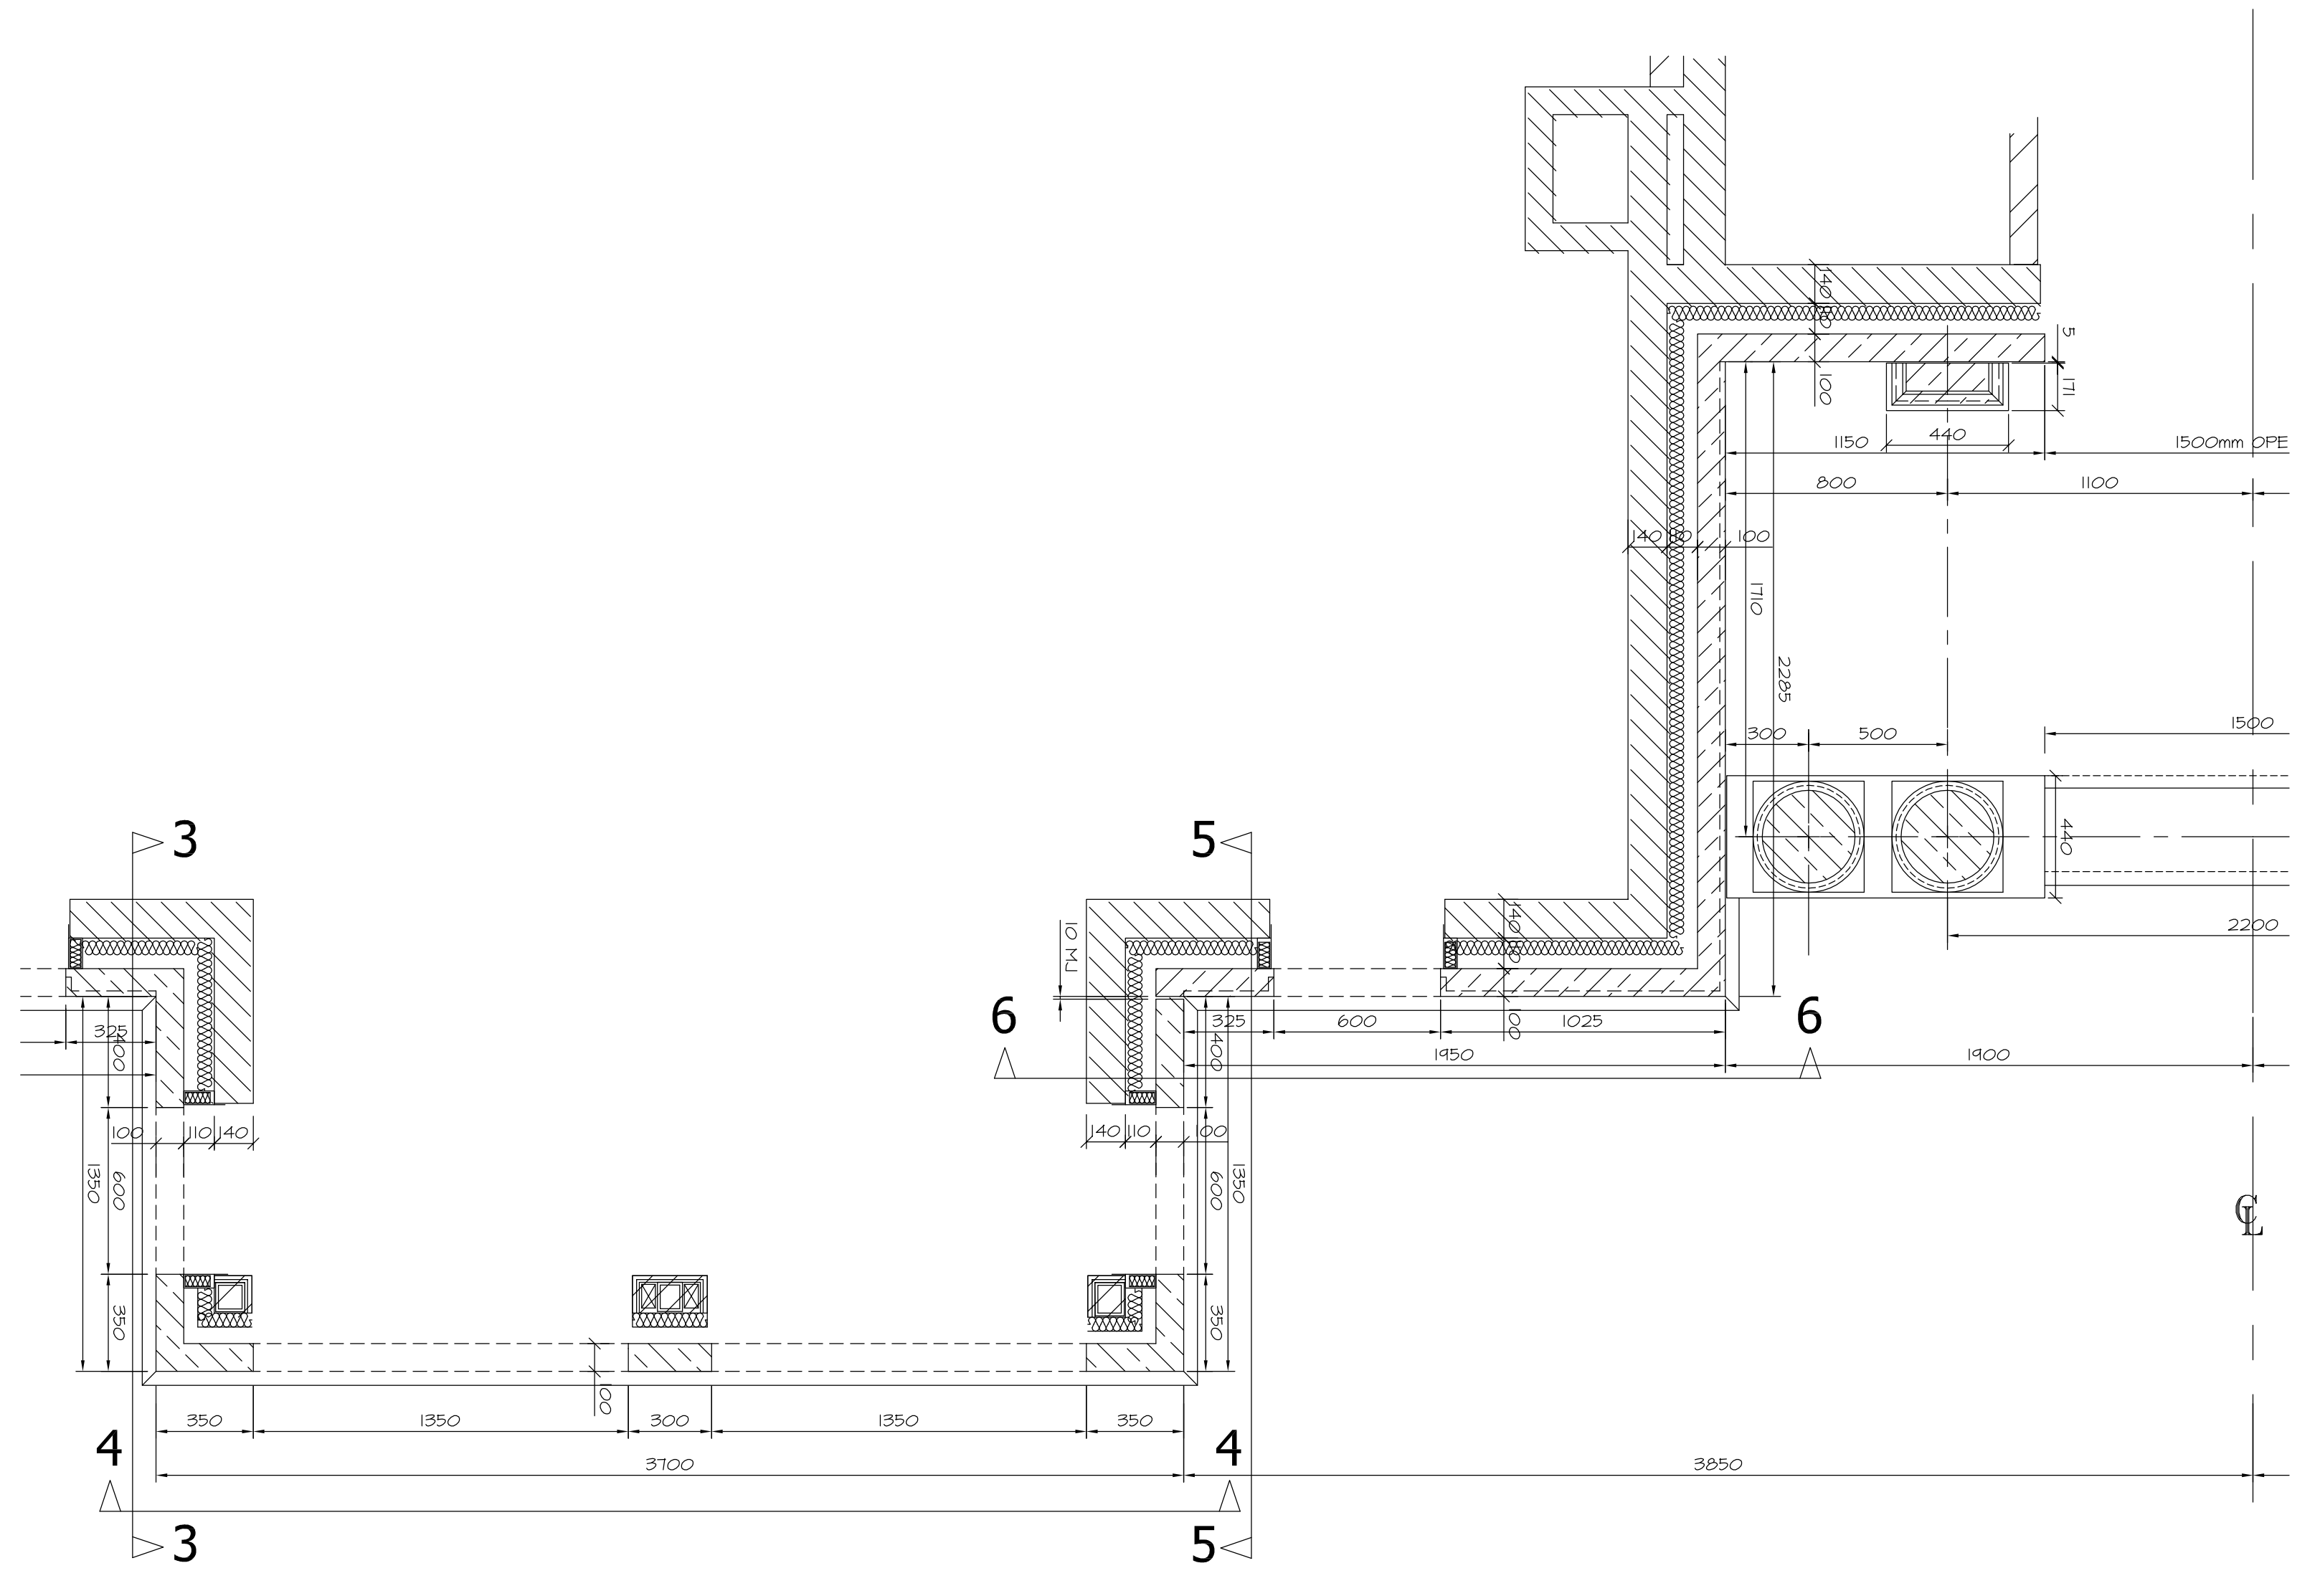

Note: Keep holes 30mm high in every 3rd joint, from TB of plinth.

Note: Keep holes 30mm high in every 3rd joint from TB of plinth.

Note: Keep holes 30mm high in every 3rd joint, from TB of plinth.

Note: Keep holes 30mm high in every 3rd joint, from TB of plinth.

Note: Keep holes 30mm high in every 3rd joint, from TB of plinth.
